Summary

I am a Frontend Developer, and I have been working in the IT field since 2020. From 2019 to 2020, I began self-education in IT and completed several courses on Udemy in JavaScript. I am a self-taught developer and constantly seek to grow in this field. I specialize in creating interactive and high-performance web applications using modern technologies and frameworks.

Experience

“Xalq Insurance OJSC” | November 2023 – Present

Middle frontend developer

- Mentoring junior and middle developers, supporting their professional growth and integration into the team.
- Fixing bugs and optimizing code, which contributed to improved performance and stability of applications in the insurance business context.
- Enhancing existing functionality based on user and team feedback, which improved the customer experience.
- Participating in the development of new products, including active collaboration with UI/UX designers to create intuitive interfaces for users.
- Developing new features to increase interactivity and usability of the company's insurance products. Implementing modern approaches to interface design and optimizing performance.
- Collaborating with backend developers and system administrators to ensure compatibility and reliability of insurance systems.
- Deploying products to production, including testing and ensuring error-free operation at launch.

“Clopas” | May 2023 – August 2023

Middle frontend developer

- Creating and implementing innovative solutions that meet user needs and business goals.
- Ensuring correct display and functionality of web applications across different devices and screen resolutions.
- Analyzing and improving existing code to enhance its performance, readability, and reliability.
- Functionality: Modernizing and expanding already implemented features to improve their efficiency and align with modern standards.
- Developing and implementing end-to-end tests to ensure the proper functioning of applications and prevent regressions.
- Quickly diagnosing and resolving issues to ensure seamless application performance and user satisfaction.

- Contributed as a frontend developer within the development team, assisting with various UI/UX tasks and supporting project progress.
- Collaborated closely with the development team to ensure efficient completion of frontend tasks and seamless integration with backend services.
- Provided technical support and assistance to colleagues, helping to resolve frontend issues and address development challenges.
- Actively engaged in a learning role, gaining practical experience in React, JavaScript, and CSS, while enhancing overall software development skills.

Skills

Frontend:

HTML5, PUG, semantic markup, CSS3, SCSS, SASS, BEM, Flexbox, Grid, CSS-in-JS, JavaScript, TypeScript, AJAX, Angular, RxJS, NgRx, NextJS, React, React Router, Redux, Redux RTK, React Query, Jotai, Zustand, IMask, Zod, React Hook Form, Yup, Formik, React Select, React Toastify, TailwindCSS, MaterialUI, Ant Design, ChakraUI, NextUI, Bootstrap, MantineUI, i18next

Backend:

NodeJS, ExpressJS, NestJS, WebSocket, Socket.IO, NodeMailer, Multer, GraphQL, Apollo Server/Client

Database:

MongoDB, Mongoose, PostgreSQL, Prisma, TypeORM, Sequelize

Tools:

Git, NPM, YARN, Husky, Webpack, Vite, Gulp, Docker, CI/CD, Cypress

Others:

Postman, Insomnia, Figma, Photoshop, Trello, Asana, YouTrack, Linux, OOP, SOLID, DRY, KISS

Education

Baku State Vocational Education Center for Processing Industry | 2012 – 2015

“ Operative-accountant ”

Languages

- Azerbaijani - native
- Russian - native
- English - B1
- Turkish - A2

Personal Qualities

- Self-organization and ability to quickly master new technologies
- High level of responsibility and attention to detail
- Ability to work both in a team and independently
- Focus on results and continuous development
